OXXA®
ESSENTIAL

VISABILITY
WATER RESISTANT
BREATHABLE

ALFRED
1988 RWS

CHARACTERISTICS
- Quality: 100% polyester with PU coating, 210 g/m²
- Breathable and high-quality mechanical stretch
- Elastic waistband
- Leg narrowing via snap buttons
- Windproof and waterproof
- High-frequency welded seams
- Two side pockets
- Comfortable and lightweight trousers
- Reflective tape horizontal and vertical (RWS)

Article number: 2.61.988.00

SUITABLE FOR ACTIVITIES IN E.G.
- Civil & hydraulic engineering
- Industry
- Transport & logistics
- Government services
- Maintenance
- Construction

COLOUR
Fluorescent orange

OTHER AVAILABLE COLOURS
Fluorescent yellow (Article number: 2.61.989.00)

SIZES
S to 3XL

PACKAGING
- 1 piece per polybag
- 20 pieces per outer box

EN ISO 20471:2013 +A1:2016 2

EN 343:2019 4 4 X

CLARIFICATION OF PICTOGRAMS

EN ISO 20471:2013 +A1:2016

EN ISO 20471:2013 +A1:2016 High-visibility warning clothing

The EN ISO 20471:2013 standard specifies the requirements for clothing that aims to visually emphasise the presence of the user to make him stand out more in dangerous situations, both day and night.

X = Class of the fluorescent reflective surface, ranging from 1 to 3 (see label for the right class)

	Class 1	Class 2	Class 3
Fluorescent material	0,14 m²	0,50 m²	0,80 m²
Reflective material (required length for 50 mm-wide strips)	0,10 m² (2 m)	0,13 m² (2,5 m)	0,20 m² (4m)

The number next to the pictogram indicates the class of the article. This depends on the minimum surface area of fluorescent and reflective material.

EN 343:2019

EN 343:2019 Protective clothing against rain

The EN 343:2019 standard specifies the requirements and test methods for materials and seams of clothing that protect against precipitation (rain and snow), fog, and ground moisture. For workwear conforming to the EN 343:2019 standard, water resistance and water vapor permeability are of paramount importance. These parameters are always indicated next to the pictogram. The seams are waterproofed to the highest class.

EN 343:2019

X = Water resistance class, from class 1 to 4

Y = Water vapor permeability class, from class 1 to 4

R = Rain tower test (optional)

STORAGE CONDITIONS

The clothing should be stored in a clean, cool and dry place and not kept compressed in the original packaging. Do not expose the clothing to direct sunlight. Never store the clothing wet; always allow it to dry hanging first. Make sure that the packaging and the clothing are not damaged when shipped.

TESTING INSTITUTE

This garment is certified by:
SGS Fimko Oy (Notified body nr 0598), P.O. Box 30 (Särkiniementie 3), 00211 Helsinki, Finland.
